

LAYERS OF LIFE.

## ABOUT COMPANY

### We're here to protect your valuable assets

Maxolay coatings, is a private limited company incorporated in India in the year 2022, by technocrats to manufacture and market high quality coatings and chemicals. It is founded by two young and dynamic; yet experienced entrepreneurs.

The organization is managed by highly skilled and qualified leaders. The company stands on very strong four pillars – Management, Marketing, Operations and Finance leaded by qualified professionals and people with very good expertise.

Maxolay Coatings has in-depth knowledge of past, present, and future requirements of the industry. They are aware of the day-to-day challenges and difficulties faced by customer. Therefore, we work closely with our customers and provide environment friendly performance enhancing coating solutions which helps in extending the life of customer's valuable assets along with health and safety standards.
